

## KNOWLEDGE EDGE® FEATURES

- **VALIDATED CONTENT** from subject matter experts
- **ROBUST SEARCH**  
Search specific areas of interest from thousands of different pieces of content in a variety of media formats. Narrow searches further with content categories.
- **PLAYLISTS**  
Using the content in Knowledge Edge, administrators can create, manage, and assign students to playlists containing a collection of instructional materials that you choose. Students can also create playlists of their favorite content.
- **MY WATCH LIST**  
In addition to creating playlists, students can tag content to be added to his/her watch list to view later.
- **MY FAVORITES**  
Content within Knowledge Edge can also be tagged and added to a student's favorites list. This is perfect for material that is frequently viewed or referenced.
- **ACTIVITY LOG**  
Administrators can monitor student login activity, personal goals, and content access.
- **MY REVIEWS**  
Students have the ability to rate and share a review of content within Knowledge Edge.
- **WHAT'S HOT**  
See what content has been viewed the most by other users in your company and see top content viewed for the week and year among all Knowledge Edge users. You can also see what content has had the most product reviews and which content is ranked the highest.
