

## LEAN SILVER CERTIFICATION PLAYLIST

Add powerful resources for Lean Silver Certification.

This playlist is a powerhouse of additional training materials for your students and staff who are preparing for the Lean Silver Certification exam. We've assembled a comprehensive collection of text and video content that can enhance their understanding of advanced lean topics. These materials help your students or staff learn how to integrate lean practices throughout the value stream – from suppliers to accounting to final customers. The playlist is also an excellent resource that can be used by those facilitating kaizen and lean events.

Preassembled playlists put the right content at your fingertips.

Knowledge Edge® gives you online access to thousands of ebooks, training videos, and technical papers from respected subject matter experts. Preassembled playlists are one way to easily tap into the vast resources of Knowledge Edge and manage the content to support your goals. We've selected relevant materials on the most popular topics and organized them into playlists that your students or staff can access 24/7. You can turn the playlists on or off and assign due dates. You can also customize playlists for any topic by adding or removing additional content in Knowledge Edge.
